

DIVE INTO SUMMER READING!

Fun Stuff??

Just a few things that may (or may not) be of interest to you.

- [**THE NEW YORK TIMES SUMMER READING CONTEST**](#)
- [**Wizarding World of Harry Potter**](#) - the quizzes are great fun!
- Try the World's Largest Trivia Website - [**Sporcle**](#). Run it by your parents before you start. Accessible on your computer and via an app on your gooley device. You do not have to join or log on but ads do pop up now and then. If you go to the categories tab, they have school related topics like history and literature and fun stuff, such as sports and music. My personal favorites are the laddyrinths (word mind puzzles) and the Harry Potter quizzes you can find in the search box. My fav? Harry Potter 200. Can you name the 200 most mentioned characters within the 18 minutes limit. (Hint - if you use last names you get the most hits - typing in Weasley gets you 11 boxes filled!)
- [**Crafts!**](#) -a starting point, at least!

- [Free Rice](#) - practicing vocab and fact knowledge in a worthwhile way. When you give a correct answer, rice is added to your bowl. It's not hypothetical; the United Nations World Food Programme donates actual rice to needy populations each time you get one right.
